Allowable Subject Matter

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In claim 34, line 7, insert –to– between “configured” and “direct”.

3. **Claims 34-57 are allowed.**

Reasons for Allowance

4. The following is a statement of reasons for the indication of allowable subject matter: the claims are allowable over the prior art for at least the reason that the prior art fails to teach or to reasonably suggest *an interleaver comprising, inter alia, a birefringent filter assembly comprising at least one birefringent filter stage, each birefringent filter stage comprising: a first filter polarization beam displacer; a second filter polarization beam displacer; at least one reflector configured to direct light from said first filter polarization beam displacer to said second filter polarization beam displacer, as set forth in the claimed combination.*

5. With regard to the applied prior art reference Li (US Patent No. 6,212,313), it is noted that although wavelength filters 61 and 62 respectively *rotate* the polarization of signals in either

or both of even or odd channels, filters 61 and 62 do not *displace* signals in either or both of even or odd channels as do the filters disclosed by the instant invention.

6. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
